Help Protect the Future and your Bottom Line

As a partner, you'll instantly become part of NTT Security Holdings' global security network;
a powerful advantage that sets your company apart. Whether you have limited cybersecurity capabilities
or a strong existing capability, our partner program has the flexibility to adapt to your business.

Resellers

The Samurai XDR Partner Program is designed for Partners who want to resell and support Samurai XDR for businesses. As a Partner, you can provide your customers with a powerful cybersecurity solution through Samurai XDR's advanced threat detection and response capabilities.

By reselling Samurai XDR, Partners can generate substantial revenue and establish long-term relationships with their customers.

Partners also gain access to resources to enhance their expertise in cybersecurity and develop their sales and support capabilities. Join the Samurai XDR Partner Program and become a trusted provider of cybersecurity solutions worldwide.

Managed Service Providers (MSPs)

Samurai XDR is a leading technology for Managed Security Services Providers (MSSPs) and Managed Service Providers (MSPs), available worldwide and offering exceptional capabilities and comprehensive features for the management of security services. Its unparalleled level of protection allows for the identification and elimination of advanced cyber threats, ensuring the safety of all kinds and sizes of organizations.

The Samurai XDR platform seamlessly integrates with existing security infrastructure and provides real-time monitoring and analysis for prompt and efficient response to potential threats. Supported by a dedicated team of experts, Samurai XDR continuously updates and enhances its security solutions to effectively tackle evolving challenges.

Its success among MSSPs and MSPs attests to its reliability and value in today's complex cyber landscape. By choosing Samurai XDR, Partners can confidently deliver proactive security services to their clients.

Samurai XDR Resources

Samurai XDR is a self-managed XDR SaaS. Samurai XDR maximizes your security investment by effectively and continuously detecting threats and orchestrating responses.

Self Service Security Operations

Enabled by our orchestration and automated detection engine, Samurai XDR provides an easy-to-use, easy-to-access, self-service platform that gives you the tools needed to detect, investigate and stop cyber-attacks.

Threat Intelligence Reports

Want more information about new threats? The Global Threat Intelligence Report provides detailed information about threat intelligence for the past year. Updates are made quarterly to keep you up to date on new and emerging threats.

Security Assessment

Not sure how robust your security is to handle an attack? With the Cyber Threat Risk Assessment we can help reveal the potential for you to defend against a cyber threat. Get your customized Rick Assessment Report to reveal vulnerabilities in your digital landscape.
